

## Dear Friends of the Organ and Organ Music!

This year we are celebrating our anniversary: 20 years of ORGANpromotion!

What is 20 years in the life of an individual organ or seen against the long history of the organ?

Well, in the life of an organ (pro)-motor 20 years it is quite something, and we are happy and also a little proud: 20 years of getting things moving, keeping them moving, “organizing” (as you might say) events, organ courses, organ trips, organ symposia, publishing CDs, DVDs and books. Our thanks to all our lecturers, event and advertising partners, to the myriad of organ, art and music enthusiasts and organists who we have been privileged to meet in those 20 years. A chronicle of our 20 years can be found on the reverse of this prospectus.

But it's the meeting with YOU that motivates us, and for this reason we look forward, in our anniversary year 2010, to making many new acquaintances and renewing old ones.

Special thanks go to this year's publicity and event partners:
